

Ready to love your smile? Meet SureSmile.®

The clear aligner treatment experience
that supports you along the journey to
a healthy, beautiful smile.

An experience sure to make you smile

SureSmile® Aligners helps give you a healthy, beautiful smile in a way that fits comfortably and conveniently into your daily routine.

Predictable results. We partner with dental experts at the SureSmile® Digital Lab to develop a custom treatment plan designed to give you the results you want in the time you expect.

Support to stay on track. We will provide you with the SureSmile® VPro™ High Frequency Vibration Device to be used only 5 minutes¹ a day with your aligners. It may improve the comfort of treatment and may help your aligners fit just right.² We will monitor your progress throughout your journey to ensure treatment is going as planned.

Lasting results. SureSmile® Retainers and SureSmile™ Whitening Kit³ help maintain your new smile after treatment has ended.

SureSmile Technology has been used to treat over 1 million patients around the world⁴.
